

Latest Information

PT Agro Alam Nusantara (AAN) has become a separate entity from KPN Plantations

One of the companies managed by KPN Plantations, PT Agro Alam Nusantara is no longer under the management of KPN Plantations. This decision was taken based on the expressed desire of PT Agro Alam Nusantara to conduct its business autonomously. KPN Plantations fully supports and respects this decision.

Therefore, the current portfolio of companies under the management of KPN Plantations comprises 25 entities engaged in both oil palm plantations and palm oil mills. While our corporate structure has evolved, KPN Plantations remains steadfast in its commitment to global leadership in sustainable palm oil production. We will continue to endeavor to enhance productivity, quality, and sustainability throughout our operations.
